

ANNUAL AADA AUTOMOTIVE STATISTICS BOOKLET RELEASED

28 February 2023

To: ALL AADA MEMBERS

AADA has gathered data from various sources to create the 2023 edition of the annual Automotive Statistics booklet. AADA Automotive Statistics 2023 is a valuable resource which provides insights into the latest trends in the automotive industry, summarising some of the most relevant and interesting data.

This comprehensive guide contains various statistics on new vehicle sales; Australia's in-service fleet; the economic contribution of Dealerships; the sales performance of each Dealer network; taxation in the automotive industry; fuel trends of vehicles from 2019-2022 and results of electric vehicle research.

To access your essential summary of the past year in the automotive industry, download the AADA Automotive Statistics 2023 booklet [here](#).
