NATIONAL SKILLS COMMISSION – SKILLS PRIORITY LIST SURVEY

14 October 2021

To: ALL AADA MEMBERS

Many members have reported that they are experiencing a shortage of skilled staff across their Dealerships. These shortages are especially evident in Dealer workshops where there is a shortage of skilled technicians but may also be an issue in other parts of the Dealership.

The AADA has been engaging with the Federal Government on the issue of skills shortages and through this representation, has now been asked to respond to the Skills Priority List (SPL) national survey, conducted by the National Skills Commission (NSC). The SPL identifies occupations that are in shortage across Australia and is an important source of information which enables the government to develop policy responses on migration shortages, training funding and employer incentives.

To ensure that our response is as accurate as possible, we are asking members to assist us by answering the following survey questions. We estimate that it should take Dealers about 6 minutes to provide answers to the following 12 questions.

Please [click here](#) to take the survey and thank you for your assistance.

If you have any questions, please contact the below AADA team member:

Brian Savage

CHIEF OPERATING OFFICER
